Receive both comfort and compliments when you select this elegant frame featuring a sleek retro vibe. The etched brow bars have been laser cut for the highest level of accuracy. The entire frame, including nose pads and hinges, is constructed of pure titanium, the same material sought after by spacecraft, jet engine and high-end jewelry designers. This lustrous metal is both ultra-durable and ultra-lightweight. No matter how active your lifestyle, this frame is practically unbreakable and comfortable to wear. It is hypoallergenic and corrosion-resistant. Unlike other metals, which can be cold and heavy on the skin, titanium offers a warm and indulgent feel.

## FRAME FEATURES:
